**The 8th Annual DNMC Dairy Summit
The Sebastian in Vail, Colorado**

We are excited to announce the 8th Annual DNMC Dairy Summit in Vail, Colorado! Our last trip to Vail was one of our highest reviewed destinations. In keeping with the tradition of the event, we have planned a unique blend of education, fun and relaxation. We trust that the great memories from previous Summits will encourage you to attend. If this is your first Summit invitation, we can assure you that it is an event you won't want to miss.

The grandeur of the Rocky Mountains and beautiful Vail Village will be a welcome break after a long summer and a busy fall harvest. The business sessions at the Summit have earned the respect of the industry as relevant and unique; they cover the timely issues facing dairy producers. The top experts and leaders in our industry find their way to the Dairy Summit podium. If you are new to the Summit, you will find the sessions primarily focused on dairy business topics.

The DNMC team, along with our industry partners, wish to host you for this trip. As usual, all travel and conference costs will be covered for you. Our hope is that the Summit can continue to build camaraderie among the clients of DNMC and serve as an opportunity for DNMC and our industry partners to say thank you for your business relationship.
